## Devices Supported

Quantum Networks: QN-I-200 (Standalone & Cloud Controlled)

*\* Features may vary depending on the operation mode of Access Point.*

## Important Notices

- If you are unable to upgrade firmware, or cannot risk upgradation in a critical production network, you should isolate Access Point, upgrade, test and then reinstall.
- While upgrading firmware in Access Point, please make sure power supply should not be interrupted. This may corrupt firmware in Access Point. It is advisable to use power source from UPS.
- In case Access Point is corrupted, refer Rescue Firmware Guide. Download link as below:  
<https://www.qntmnet.com/downloads.php>
- Obtaining Firmware - Latest stable firmware is available here:
